OFFICE OF THE COMPTROLLER TO THE GOVERNMENT
OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

No 170 Land — Bangalore, dated 18th June 1934

Enc one

5930
L.

From

M VENKATESA IYENGAR, Esq., MA
Comptroller to the Government of
His Highness the Maharaja of Mysore,
Bangalore

To

R Ranga Rao, Esq., B A, B L.,
Chief Secretary to the Govt of Mysore,
Bangalore.

Sir,

I have the honor to state that according to para 4 of Government Order No L.3075-3145 Ml 230-32-17 dated 6th November 1933, the Bangalore City Municipality had to pay a sum of Rs3,00,000/- for water supplied to it from Sri Chamarajendra Water Works for the three quarters ending March 1934 The Municipal Commissioner has paid till now only a sum of ~~only~~ Rs1,00,000/- in part payment on the ground that the full amount of revenue due under Items i to viii in para 1 of Government Order of 9th August 1933 has not been realised and that the Municipality finds it difficult to make up the deficit. This part payment is made even after the final orders of Government were passed to the effect that all such deficits should be made good from the ordinary revenues of the Municipality (Vide letter No L 7752 Ml 217-33 of 27th April 1934 to the Municipal Commissioner) The net revenue to Government, as estimated in page 84 of Government Budget for 33-34, will consequently not be realised I, therefore, bring the matter to the notice of Government for such action as is considered necessary in the matter

I have the honor to be,
Sir,
Your most obedient servant,

C V Narayana Reddy
For Comptroller

same ground for non-payment of the dues in full, a reply was sent, in this Office letter no L-7752 dt 27-4-34 stating that till the revenue from the sources anticipated was realised fully, the Municipality had to make good the deficit from its general revenues as directed in para 1 (5) of the GO dt 29-8-33.

P.

2 The MC now requests a reconsideration of the above order in view of the present financial condition of the Mcty. It is stated that the reserves at its credit have all been spent and that there is no other source from which the deficit could be met.

Paid II

3 Govt have made provision for their share of the water charges, viz Rs 30,000, by sanctioning an additional grant to that extent to the budget for 1933-34. Whether Govt should meet, also, the deficit due by the Mcty does not seem to be a practical proposition in the existing condition of the State finances. If the Mcty cannot pay the amount out of its funds, it will have perhaps to take a loan from Govt to discharge the liability.

(A) What the amount will be cannot be definitely stated now. It may be more than Rs 70,000 mentioned in the MC's letter.

11) In the Commissioner's letter dated 3-3-34 it is stated that upto end of December 33 there was a deficit of Rs 42,258 which the Municipality pleads inability to pay. Even out of the collected amount the Municipality has paid only Rs 1,972 Rs and the balance of 108646 Rs would be sent to the Water Supply Department. Early. It is not known if this last amount has since been paid - otherwise it should be required to be paid at once and the M by the mind to pay regularly every month the amount due - As regards the deficit of Rs 42,258 Rs, there is nothing to show that the Municipality is unable to pay if so unwilling they are and does so is not making any attempts to collect the arrears water supply dues and of the willingness & ability to do so may be obtained from the Municipality. Meanwhile the Executive Authority of the Govt may not the Conduct of the Municipality in the matter of enforcing the payment of the amount

Payment of water charges due by the Bangalore city Municipality

60880 10/5/1

Md File No 217 of 1933 | General and Revenue Secretariat

The Sum of Rs 20,000 taken as due by Govt under (1) is not correct, as only Rs 11,666 are due for 3½ months from 16-3-33. If this figure is adopted, the amount payable by Govt will be Rs 60,416 (noted as Rs 58750). This will have to be paid by Govt under the Govt order of 9-8-1933, and the Fund decy may be credited as to the source from which it may be paid.

A

(4) As regards the amount due by the Mcy, the Municipal Comr has, for the purpose of arriving at the balance due, taken into account the sum of Rs 43,514 due under 'Water rate' Contribution from general revenues of the Mcy. This sum has not yet been paid.

(5) The balance due by the Mcy, which is calculated as Rs 39,251 by the Muni Comr, has to be raised (A) by Rs 8,334 the total comes to Rs 47,585. The Mcy wishes this amount to be waived by Govt and the Muni Comr requests reconsideration of the Govt order communicated in this Dept letter no 28752 dy 21-4-34 that it has to be made good from the general revenues of the Mcy. During the discussion with the Muni Comr on 7-8-34 the II Member observed that the Govt could not give up their claims which should be made good as this is a matter of contract and that if the Mcy wanted some more time for payment or proposed to pay in instalments, the matter would be considered by Govt. The Muni Comr's letter makes no reference to any such proposal.

(A) Vide, A above

If the proposal to waive the balance is not accepted by Govt, the amount due by the Mcy will be Rs 43,514 + Rs 47,585 or Rs 91,099

Copy of letter No.L.7752 Ml.217-33-3 dated 27th April 1934 from the Chief Secretary to Government to the Municipal Commissioner, Bangalore City.

==========

With reference to your letter No.G.To 291 dated 5th March 1934 forwarding a statement showing the amount collected by the Municipality in the shape of water rate from 16th March 1933 to end of 31st December 1933 and stating that the Municipality will be unable to pay four lacs of rupees annually until the full anticipated revenue under all the eight items referred to in para 1 of Government Order No.L.1129-31 Ml.260-32-13 dated 9th August 1933 is realised, I am directed to state that Government regret that they cannot forego any part of the payment due to them. The work of metering unmetered connection is understood to be going on briskly and should result in considerable addition to the Municipal revenue. The reduction in the quantity of water alloved to be consumed free of charge which is separately under consideration will further augment the Municipal revenue

As regards water rate on Government Buildings it is reported by the Chief Engineer that you have not furnished the statements showing the water rate assessment on each building called for by him in his letter No 5516 dated 2nd December 1933 and that it is only after receipt of these statements that action can be taken regarding the payment of the amount by the Public Works Department. I am to request that the matter may be expedited and the information required by the Chief Engineer furnished without further delay

From the stages of the items referred to above, it is clear that the extra revenue expected from those sources can be fully realised only from the next official year. Till then the balance due to Government over and above the realisations from the sources mentioned in the Government Order of 9th August 1933 referred to above, has to be made good from the general revenues of the Municipality as directed in para 1 (s) of that order.

I am to add that Government have full sympathy with the Municipality and shown all possible concessions in regard to the water supply charges

payable

payable by it. It is hoped that the Municipal Council will on their part realise that they have been very generously treated and abide by the conditions under which drinking water is being supplied to them.

CITY MUNICIPAL OFFICE,

Bangalore City, Dated 21st June 1934

6086

FROM

P H KRISHNA RAU, ESQ., M A,
MUNICIPAL COMMISSIONER,
Bangalore City

TO

R Ranga Rao, Esq., B.A., B.L.,
Chief Secretary to the Government of
His Highness the Maharaja of Mysore,
Bangalore.

Sir,

With reference to your letter No. L. 7752 M1 217-33-3 dated 27th April 1934 stating that Government cannot forego any part of the amount of four lacs of rupees due to them on account of water supply to this city during the year 33-34 and that the deficit in revenue realised in this behalf owing to the non-metering of unmetered connections &c should be made good from the general revenues of the municipality &c I have the honor to state that the letter was placed before the Council, who, at their meeting held on 2nd June 1934 resolved that a further representation be made to Government to reconsider the order in view of the present financial stringency.

In this connection I may be permitted to bring to the notice of Government that only a sum of Rs 66,000 has been collected as excess water charges from 1st July 1933 to end of May 1934 and even if another Rs 8,000 is collected during this month the revenues under this head will fall short of the anticipated figures in the Govt. Order dated 9th August 1933 by Rs 70,000. Since the Municipality has spent all the reserves at its credit there is no other source from which this deficit could be met. I therefore request that Government may be pleased to reconsider the question and issue favorable orders in the matter. A copy of the resolution of the Council is enclosed for reference

I have the honor to be,
Sir,
Your most obedient servant,

Municipal Commissioner.

Forwarded with compliments.

No A1-1457/34-35 Bangalore, Dated 5th September 1934

GEN & REV SECTT. 1040 8 SEPT 1934 L. S. G. BRANCH.

From

M. Seshadri, Esq., M.A.,
Municipal Commissioner,
Bangalore City

To

R. Ranga Rao, Esq., B.A., B.L.,
Chief Secretary to the Government of
His Highness the Maharaja of Mysore,
Bangalore

Sir,

In continuation of my letter No. 436 dated the 20th June 1934 re: the payment of charges by this Municipality for the supply of water from 16th March 1933 to end of June 1934, I have the honor to state as follows:-

1. According to Govt. order No. L. 2410-12 Ml 260-32-16 dated 12th October 1933, the Municipality has to pay from 16th March 1933, a sum of Rs 4,00,000 per annum for a total supply of three million gallons of water. At this rate, the amount due from the Municipality will be Rs 5,16,667. Out of this, a sum of Rs 51,972 was paid in June 1933 and Rs 1,90,000 during 1933-34 making up a total of Rs 2,41,972. This does not include the excess water charges collected by the Water Supply Department.

2. Under this head, a sum of Rs 18,848 has been realised from 16th March 1933 to end of June 1934 and Rs 74,329 during 1933-34, thus making a total of Rs 93,197. If this is added to the amount paid by the Municipality, the total works up to Rs 3,35,149. A sum of Rs 30,000 being the grant due from Government for 1933-34 has recently been adjusted by the Comptroller in the accounts towards the dues of the Municipality. The total amount including this adjustment so far paid will be Rs 3,65,149.

Government order referred to above, Government have sanctioned the levy of water tax on Government buildings and the revenue from this source is expected to amount to Rs 40,000 per annum. Calculated at this rate, the Municipality should have realised Rs 60,000 as water tax on Government buildings as detailed in the margin. Nothing has been realised so far.

For the II Half Year 1932-33	Rs 20,000
1933-34	40,000
Total Rs. ..	60,000

4. Again, in accordance with the same Government order, a grant of Rs 8,750 for the last quarter i.e. 1932-33 is also due to the Municipality at the rate of Rs 30,000 per annum.

5. If these items are adjusted, and if a sum of Rs 43,514 being the balance payable of the two sources noted in the margin which are directly payable by the Municipality, the total works up to Rs 4,77,413 as against the demand of Rs 5,16,617. The deficit will thus be Rs 39,251. This is the amount which the Municipality wishes to be waived by Government.

1. Water tax from 16th March 1933 to 30th June 1934	Rs 1,88,611
2. Amount payable from out of the general revenues of the Municipality at Rs 75,000 a year	96,875
Total	2,85,486
Deduct amount actually paid to the Water Supply Department from 16th March 1933 to 30th June 1934	2,41,972
Balance Rs.	43,514

6. The deficit is mainly due to the non-realisation of the revenue expected from excess water charges. In addition to the sum of Rs 50,000 which was being realised in the shape of excess water charges, it ~~is~~ was anticipated that a sum of Rs 46,000 would be collected by metering the non-metered connections and another Rs 36,000 by the reduction of free allowances or a sum of Rs 1,32,000 in all under excess water charges. As against this, the actual amount realised during 1933-34 is only Rs 74,329.

7. In these circumstances, I request that you will be so good as to move Government to reconsider their decision about the recovery

recovery of water supply charges.

I have the honor to be,
Sir,
Your most obedient servant,

Municipal Commissioner.
